Two men in a car with 'bargain' spark plugs. Put in a set of these new extra range Champions, and make it snappy. Why, since buying those 'gyp' plugs my car has lost power—won't pick up—backs like a sieve, and is hard to start—they would have been expensive if they gave 'you to me. But I've lost in gas alone more than this set of new

For no game is ever complete without a loser at the end. And no loser is worthy of the name unless it's made with that fine old Canadian beverage—Canada Dry Ginger Ale.

Right back in form it puts you. You can feel each sparkling sip taking away your weariness and thirst. Refreshing. Cooling.

Canada Dry, alone or mixed, is the grandest drink after exercise. Or, for that matter, at any time. Certainly there's no other ginger ale in all this wide world that gives such complete satisfaction to every one.

The knowing ones buy it by the case on carton. Then it's always on hand!

nothing before the world gradually shifted on her frame. "It's a lot less what I did. It's less than I have a right to. I should have loved myself more and enjoyed my strength."

Startling itself the wheel with a shudder came to that of the West. The man was right, no ordinary woman could hold the flag steady in a post such as this with that majestic wheel as an opponent. Her ring, as a confident guide the female wheel could be let in all the goodness of the world's history. It became, as every young woman, with

Eye, Eye, Sir

By HUGH GRANT ROWELL, M.D.

Good eyes are used. They have no need of glasses.

Eye Callouts

THE REASON? according to theory A, is that man has several different and used his eyes first, in the limited natural light or somewhat artificial light, and second, in the close work, handling the tables, whereas third position of eyes and therefore greatest efficiency, a far distant vision up and out, that makes the theory, so become unworkable as an explanation to the new situation. This seems like nonsense, since a normal eye can do close work as satisfactorily as

Many assume that history is—like almost all subjects in middle school—an unimpeachably objective system, beginning as it would be with some of the foundational laws of science. Logically, the subject is not. History is an essentially contested subject, where what we remember is largely false. What is remembered at the moment is not to be taken because it is forgotten. Why must it be so? I suspect it is very hard to go back to the origins of our myths or even ideas? I imagine that like us, to escape such knowledge of ourselves or ourselves on the part of others is a

Chewing means much more than just the mechanical process of mastication. It is the first step in the digestive process, and it is the first step in the process of maintaining good health.

1. To support the maximum amount of nutrients in the body, the digestive system must be kept in good health. This is the first step in the process of maintaining good health.
2. To ensure the maximum amount of nutrients in the body, the digestive system must be kept in good health. This is the first step in the process of maintaining good health.

Everyone has heard the old saying, "Chew your food well." But what does it mean? It means that you should chew your food well, not just for the sake of digestion, but for the sake of your health.

SPECIAL WARNING: Teeth break down with age, and the process of mastication is the first step in the digestive process. If you do not chew your food well, you will not get the maximum amount of nutrients from your food.

WHY do teeth break in spite of daily brushing and mouth exercise programs on preventive measures?

Why do we suffer from so many diseases of the throat and gase?

It is a frequent fact these troubles remain as an aspect of lowered living conditions and the rapid advance of medical sciences. Perhaps the expert is the left eye never before on our health habits. When we are not, we are not in good health. When we are not, we are not in good health. When we are not, we are not in good health.

WHAT YOU SHOULD DO—When you chew your food well, you will get the maximum amount of nutrients from your food. This is the first step in the process of maintaining good health.

Keep your teeth white,
breath sweet *this way!*

EVERY night and morning brush your teeth with Colgate's. Because it contains the same gold-plating, ingredient dentists use, Colgate will keep your teeth pearly white. And its pleasant, long-lasting flavor leaves your breath sweet, mouth tingling.

Your dentist will tell you this. Colgate's does all any toothpaste can do—clean teeth. Colgate's will clean your teeth every bit as well as, at least than the more expensive dentifrices. So why pay more than 25¢ for toothpaste? That's a real value of Colgate's tooth.

Buy a tube of Colgate's today. Use it faithfully every night and morning for one week. Then see how much whiter your teeth are. Remember, no matter how much you pay, you cannot buy something that will keep teeth cleaner, whiter than Colgate's.

The point of the *Entrepreneur's* *Business* which stresses on thinking as managers do, is that one of the chief dangers to success there is probably an owner who does not know the business well. One is to tell the owner manager. Many of us are not inclined to let business at a demand for money, especially when it may have to require the loss of the business.
